

E-poster Guidelines

The e-poster will be presented in either PDF or PowerPoint format.

All e-posters should visit Room 25 one hour prior to their scheduled presentation time to review and upload their e-poster to the computer in Room 25.

It is recommended that you bring a copy of your file on a USB stick or external hard drive. Your e-poster will be uploaded to the computer in Room 25 via your USB stick or external drive.

In case there is not a good internet connection available in Room 25, you should not include hyperlinks in your presentation or rely on accessing websites.

E-poster Format

The e-poster should display the title, authors, and institution(s) conducting the study in a larger font size than the rest of the presentation text.

In addition, it should include

- (a) Introduction (purpose and significance of the work)
- (b) Methodology (sample, instruments, experimental procedure, statistical analyses)
- (c) Results
- (d) Discussion-conclusions

up to 2 references, acknowledgements (optional) and contact details with the main author (email preferred).

It is recommended

1. Font: Times New Roman Greek or Arial
2. Placement of the conference logo on the 1st slide.
3. Use of figures or photos or images
4. The titles of the chapters such as Introduction Methodology Results Discussion-Conclusions should have a larger font size compared to the rest of the presentation text and bold

PC users

- e-Poster: up to 3 slides in PowerPoint, 16/9 display on the screen page layout, horizontal slide orientation (options from design settings).
